Sentiment analysis (opinion mining)

Table of Contents

last modified: 2024-01-25

Short description

Sentiment analysis consists in classifying a piece of text as being positive, negative or neutral in sentiment.

Key steps

- Read the ethics sheet on sentiment analysis
- Useful: a review paper on sentiment analysis
- Collect texts to analyze! Social media posts, interview transcripts, other type of text?

Tools for sentiment analysis

- Free tool for sentiment analysis for texts in French, Spanish and English
